

# CSci289 Social Implication of Computer Technology

## Assignment IV

**Due Sunday November 6, 2022 @ midnight**

**Provide short answers to the following questions:**

1. *Do you think hiring former hackers to enhance security is a good idea or a bad idea? Give two reasons for your answer.*
2. *Give two suggestions you have for resolving the issues created by differences in laws between different countries?*
3. *Describe two techniques criminals can use to gather the information they need to steal an identity.*
4. *Describe two ways a business can protect its customers from identity thieves.*
5. *Describe two ways a person can protect their identity.*

**All questions require short answers, no more than one paragraph and submitted in Blackboard in MS Word or Adobe pdf file format.**
